

HOMOGENEOUS VINYL FLOORING

Homogeneous Vinyl flooring reduces the noise and provides comfort underfoot. It is one of the most durable commercial flooring solutions maintaining its magnificence under heavy foot traffic and use. It is moisture and stain resistant, so spill can easily be cleaned. When compared with alternative materials, homogeneous Vinyl flooring offers an attractive installed cost with economical maintenance over the life of the floor.

A wide range of sheet vinyl flooring is available with enhanced slip resistant surfaces as well as homogeneous sheet flooring for hospitals, healthcare facilities and surgical rooms.

The Global Vinyl Homogeneous Vinyl flooring has been duly tested and approved by the Industrial Technology Institute (ITI) of Sri Lanka.
